

While not all spec home finishes will match a homeowner's style or taste, with the right interior designer, this seeming problem can be transformed into a stream of possibilities. Working with Marla Oppenheim and Marsha Ritter of Mtoo Interior Design for Pizzazz, the existing tile, flooring, and paint became the canvas for a bespoke new design that matched the new resident's elegant sensibilities and active lifestyle. ▶

By utilizing non-traditional layouts in many of the rooms, the designers provided a personalized take on comfortable living in this 3 bedroom / 2.5 bath home by Stock Custom Homes. The choice of complementary furniture fabrics, bedding, and window treatments deliver a harmonious cohesion throughout the home. ▶

Eye-catching wall coverings, even on some ceilings, impart color and texture in multiple rooms, while the open great room and kitchen were defined by tasteful rugs supplied by International Design Source. The most impact was made in the choices of fine furnishings, distinctive art and accessories, and refined lighting that pronounce the personality of the home and its owners. ■
